

# Town of Greeleyville PUBLIC UTILITIES

## **Snowhill Water Improvements Project Public Notice**

### TOG WATER SYSTEM IMPROVEMENT PROJECT

*A public forum page on Facebook titled “[Snowhill Water Improvements](#)” has been published for the public to address questions and concerns through January 25, 2022.*

The Town of Greeleyville proposes to file an application for a loan/grant with Rural Utilities Service. The purpose of the Facebook page is to give an opportunity to become acquainted with the proposed Rural Utilities Service project consisting generally of: [the installation of water lines, an elevated storage tank, and a well; all of which, will tie to the existing Greeleyville water system. This project will make public water service available to residents \(approx. 211 households\) of the rural Greeleyville area providing clean drinking water, fire protection, and bring the existing system in compliance with minimum storage & supply requirements per SCDHEC.](#)

Citizens will have the opportunity to comment on such items as economic and environmental impacts, service area, and alternatives to the projects. Please leave comments on the Facebook page and responses will be provided within 24 hours on business days.
